

There is no escaping that at times companies need assistance in various areas of their business. In today's wide range of industry environments, many companies cannot afford to staff teams of professionals and purchase advanced technology to meet all of their needs and still maintain a healthy bottom line.

iQ offers the expertise and assistance you need for achieving:

- Business Plans
- Contract Negotiations
- OEM Specification Approval
- Manufacturing
- Assembly
- Lab Accreditations
- Quality Assurance
- Sorting
- Customer Service & Quality Concern Review
- Patent Product/Process Assistance
- Business/Industry Contacts
- Application Engineer
- Equipment & Machinery Building
- Marketing
- Sales
- Doing Business in Asia & USA
- Translations
- Establishing a Business in Asia
- Importing & Exporting

iQ's highly qualified staff is comprised of industry leaders in a variety of fields. These individuals have been recruited for their respective areas of expertise and hands-on approach to working with companies to solve problems and achieve goals.
