January 6, 2012

Dear Valued Customer,

Under REACH article 33(2), manufacturers have a responsibility to identify and communicate to customers whether “substances of high concern” (SVHC’s), are contained in their products at greater than 0.1 weight percent.

The European Chemicals Agency (ECHA) has published candidate lists for authorization of SVHC’s.

Products provided, supplied, and applied by ND Industries, Inc., do not contain any SVHC above reportable quantities, with the exception of certain plastisol coatings, and ND EZ Drive 300 Lubricant. For specific SVHC content information relating to plastisol coatings and EZ Drive 300 please see product Material Safety Data Sheet or contact ND Industries, Inc., Environmental, Health and Safety Department by using the link on the ND Industries website at www.NDIndustries.com.

Sincerely,

Kim Frazier
