March 03, 2025

Active Registration for International Traffic in Arms Regulations (ITAR)

To whom it may concern,

ND Industries, an H.B. Fuller company, has a current ITAR registration with the DDTC valid through 2026-03-31, at which point it will be renewed.

The Arms Export Control Act requires that **all manufacturers, exporters, temporary importers, and brokers of defense articles** (including [technical data](#)) as defined on the [United States Munitions List \(ITAR part 121\)](#) and furnishers of [defense services](#) are **required to register with the Directorate of Defense Trade Controls (DDTC)** as described in [ITAR part 122](#) ([part 129](#) for brokers). It is primarily a means to provide the U.S. Government with necessary information on who is involved in certain ITAR controlled activities and does not confer any export or temporary import rights or privileges. Registration is generally a precondition for the issuance of any license or other approval and use of certain exemptions.

REGISTRATION CODE

Once an entity has properly registered with DDTC, a unique registration code will be assigned to the registrant. The DDTC registration code consists of a letter prefix, M (assigned to a manufacturer and/or exporter) or K (assigned to a broker), followed by four or five digits (e.g. K-1234 or M 12345). The code is proprietary to the registrant and should be handled as such. Company registration codes should not be posted online or given out freely to the public.

VALIDITY PERIOD

The period of validity for new and renewal registrations is twelve months from the date of issuance. The expiration date is included in the registration letter issued by DDTC.

Sincerely,

Scot Wickham
Senior Business Director
